

Hello,

Producers Pack contains 128 sounds that are widely useable for Dance/Pop/Rock,etc...  
There are analog emulations (Juno, D50, Solina, OB, MS20, TB303,..), accoustic emulations (piano, sax, bass, guitar,... NO SAMPLES USED! :), Arps, FX,...

Try the modulation wheel, you could hear a subtle change or have a whole new sound!

**Installation: Back up your sounds first! Load the midi-file in Cubase,etc.. and set the tempo to 60 BPM.**

You are free to use these sounds as you like. Just let me know if you made a hit using one of them!

ENJOY!

Peter Schelfhout

PS1 : Producers Pack was created on a Virus B (O.S. 4.8), it may sound different on another Virus or O.S.!

PS2 : 2 or 3 sounds are adaptions from some (free) sounds I found on Internet, I appoligise to the creators of these sounds.
