

SONAR Shortcut Reference Document

v7.0.1 - 2007.11.25

by SONAR Shortcut Reference Project

Overview

This documentation is meant to be a quick, comprehensive and easy to read reference about all keyboard, mouse shortcuts and gestures available by default in the powerful music authoring application Cakewalk SONAR.

The doc includes informations collected from:

- The manual
- The online help
- The quickstart reference
- The "Tip of the Day" hints shown at program startup
- The SONAR Keyboard Bindings Option Dialog
- User suggestions and feedback

There are three PDF versions, containing all the same items, but sorted using a different criteria:

- by Shortcut ("_S")
- by Description ("_D")
- by Function ("_F")

In all versions, informations are grouped by operational context (Piano Roll View, Event View etc.).

A red asterisk next to a shortcut means it is new or changed in SONAR version 7.

Besides the PDF, a plain HTML version of the content (sorted by Function) is provided for easier use by users with accessibility issues.

Distribution

The reference docs can be distributed for free as long as the zip archive is distributed as a whole including this readme file.

Mass distribution (magazines, CD and similar media) is allowed only with the written permission of the authors. You can publish a copy of this material on the Internet, but please:

- 1 - Give us proper credit
- 2 - Email us about it so we can update our mirror/availability list
- 3 - Publish only the whole original zip archive, including this readme file

Credits

A big "Thank you" to all people that have helped mantaining and improving this little project, and to all that will do it in the future. A special mention goes to Tim Burgess (<http://www.raisedbar.net>) for support in setting up the accessible version of the document.

Contacts

You can contact us by e-mail for feedback, suggestions or whatever at ssrp@prjteam.com.

Hoping that our efforts will be appreciated, we just wish you a good (better?) time with SONAR; remember, it's all about music :)

Have fun

Mabian - The SSRP Team

Version history

<i>Date</i>	<i>Version</i>	<i>Status</i>	<i>Notes</i>
2007.11.25	7.0.1	Release	<ul style="list-style-type: none">• Updated to SONAR 7.0.1• Added slip edit gestures and scroll lock shortcut – were left out previously• Various minor adjustments to key names, descriptions and layout• Added accessible HTML version• Documents have now name starting with SSRD instead of SSRP
2006.11.04	6.0.1	Release	Updated to SONAR 6.0.1, changed layout+colors, fixed little layout glitch (alternate row background color could be wrong in some cases)
2005.11.25	5.0.1	Release	Updated to SONAR 5.0.1
2005.11.04	5.0	Internal only	Following user feedback, release version matches now SONAR version
2005.11.03	2.0	Internal only	Updated to SONAR 5.0
2005.02.22	1.01	Release	First official release, up to date with SONAR 4.0.2
