

How to install additional Virus TI patch libraries?

For Windows users:

Drop the MIDI file (*.mid extension) onto the following location and launch Virus Control. The new bank will be shown in the browser as a part of the user libraries.

Access-Music\Virus TI\Patches in "My Documents" folder

For Mac OSX users:

Drop the MIDI file (*.mid extension) onto the following location and launch Virus Control. The new bank will be shown in the browser as a part of the user libraries.

/Library/Application Support/Access Music/Virus TI/Patches
