

reFX NEXUS Skin

Information

- § Please keep a backup of this ZIP-archive in a safe place. It's tied to your name and without it you can't load this NEXUS skin.
- § Don't share this license with anyone. Don't even tell anyone the filename. It is unique and a part of your license. Sharing this information is a direct violation of the license terms and will lead to termination of said license.

Installation

- § Visit www.reFX.net and go to the downloads section. Enter the exact filename of this ZIP-archive (case insensitive, but all the letters & numbers have to be intact) to download the .NSK file.
- § Start your host and load NEXUS. Click on "sys" to go to the system-page. Click on "import skin". A file-selector will ask you for the location of the .NSK file you just downloaded. When selected, it will ask you to locate the license file (this ZIP-archive). Once the key inside is verified it will be used to authorize this NEXUS skin to work on your computer. You only need to do this once.
